

Invent Your Own Planet

Welcome to the universe of your imagination!

This activity allows you to create a planet that is truly out of this world. You'll decide everything from the planet's environment to its unique culture and inhabitants.

Describe the Environment

What's the weather like? Is it stormy, sunny, or something never seen on Earth?

What kind of landscapes exist?

Mountains, forests, lakes made of liquid diamond?

Who lives there?

Are they humans, aliens, or magical creatures?

What are their special abilities or features?

What are the traditions or customs?

Think about holidays, food, music, and clothes.
