

Our bigger self is the more evolved version of our self.
It is the form that has already mastered all the qualities
and virtues we are aiming to acquire.
It is the person we aspire to become.

When we take a step back
and filter our actions through this perspective,
we always come out of it with answers
that are generated from a higher self.

What would
my Bigger Self do
in this situation?

Future - Bigger Self

Present Self
